Rules - We can only have 2 honorary members per year  
Before we focus on inducting new honorary members , it'll be important to get back in contact with previous honorary members.

Purpose of Honorary Members so everyone's clear

- Networking opportunities for KHK Members to get more involved with research opportunities on campus
- Contacts within the ECE department, someone to ask about classes or about topics that may not be covered in classes
- Present on their work within the university for educational purposes

We're going to have biweekly meetings after the general meeting that switches off each week with projects committee

We're going to contact current Honorary members as well as a few "prospective" professors.

Main Contacts for Professors

Brad - Saluja

Joe - Anderson

Ian - Hitchin

Justin - Perry Kivolowitz

Brad will make a page on the wiki so we can sign up for shifts to go visit these guys

The plan is to visit them at their office hours. Talk with them about KHK and our growing enthusiasm for ECE/CS involvement. Then make sure they receive emails inviting them to Frat meals or maybe even pre games.

BADDABOOM! Les Duu EEt.
